

Constellation Points and token system

Pupils will be awarded a blue token:

- each day if their name stays on green,
- if they demonstrate one of our values 'this is a values star', all staff can award these tokens

Pupils will

- 'post' their token in the class/playground/childcare collection tubes in the tube that represents their constellation
- colour in a star on their individual star chart
- receive a bronze, silver, gold or platinum award as they collect their individual stars.

Star leaders will:

- count up the tokens in each tube at the end of each week for each collection point.
- award points, 4, 3, 2, 1 to each constellation
- 'post' the corresponding amount of coloured tokens in the tubes in the main collection point in the key stage 2 library
- count the number of coloured tokens in each tube at the end of the term to find out who has won the constellation prize.

Collection points will be positioned:

- in each classroom
- in the main hall, for childcare
- outside 2F entrance door for play and lunchtimes
- next to the door, by the stage, in the middle playground for play and lunchtimes.
